

## TEMPUS NITROPLEX

# Unlock Your Full Nitrogen Potential with Tempus NitroPlex

## The Power of a NBPT Nitrogen Stabilizer

You invest heavily in nitrogen for your crops. Ensure every dollar you spend translates into maximum results. Nitrogen stabilizers are an essential tool to unlock the full potential of your nitrogen.

## Why Nitrogen Stabilizers Matter

NBPT stabilizers are important because they protect your financial investment in fertilizer by preventing up to 50% of applied nitrogen from being lost to the atmosphere. This protection ensures that the nitrogen you pay for actually stays in the soil long enough for the crop to use it, leading to higher yields and better resource efficiency.

### They improve applications by:

- Reduces Ammonia Volatilization
- Nitrogen Use Efficiency (NUE)
- Provides Temporary Protection
- Effective Under High pH/Dry Conditions
- Protects Investment

## More Complete Nitrogen Use Efficiency with Nitroplex

NBPT improves Nitrogen Use Efficiency (NUE) by temporarily blocking the urease enzyme. This delay keeps more nitrogen in the soil for a longer period, ensuring that a higher percentage of the applied fertilizer is absorbed by the crop's roots rather than being lost to the environment.

## Maximizing Your ROI

By using the correct stabilizer, you ensure that every ounce of your nitrogen application works as intended. The result? Healthier crops, and improved return on your investment.

### Applications

#### Tempus Nitroplex is easy to use:

UREA: 2-4 quarts per ton

LIQUID FERTILIZER: 1-2 quarts per ton

MANURE: 12-15 ounces per acre

### Invest in your crop's future and your crop's success.

Contact your Tempus Ag Sales Manager for tailored application rates! For best results, always use a Tempus Ag adjuvant. This information is not intended to replace a label. Always follow and read label directions.

Do you want a more consistent ROI on your farm? Commit to trying **Tempus Ag's SyStemS** approach. Incorporating these proven tactics and products will improve your ROI.

**Start** with the soil  
**Spray** all applications with quality adjuvants  
**Supply** foliar and biological products throughout the season

### Unlock Peak ROI with the Integrated Tempus Ag's 3S System
