

TEMPUS POWERPLEX

Unlock Your Crop's Potential with Tempus Powerplex (8-13-3)

Key Benefits and Features of Powerplex

A balanced supply of nutrients is crucial for successful crop production, promoting robust early growth through the development of strong root systems. This nutrient balance also enhances flowering and energy transfer within the plant, which is essential for maximizing yield potential. Overall plant resilience is also improved, leading to better resistance to disease and more uniform, higher-quality harvests.

Key Benefits of Adding Powerplex to Crops

Superior Root and Reproductive Drive: With a high phosphorus-to-nitrogen ratio, this blend prioritizes robust root development and reproductive strength, ensuring your crops have the energy and architecture needed for early shoot growth and enhanced flowering.

Optimized Energy Metabolism: The phosphorus-rich formula acts as the plant's "powerhouse," facilitating vital ATP energy transfer and photosynthesis to support vigorous growth even during critical environmental stress periods.

Balanced Health and Uniform Maturity: By combining targeted nitrogen for lush foliage with potassium for disease resistance, this product promotes uniform crop maturity and high-quality yields from seedling to harvest.

POWERPLEX IN SOYBEANS

Applications

Powerplex is easy to use:

RECOMMENDED RATES

- IN-FURROW: 1/2 - 1 quart per acre post planting
- FOLIAR: 1-2 quarts per acre
- SEED TREATMENT: 2-6 ounces per acre

Invest in your crop's future and your crop's success.

Contact your Tempus Ag sales rep for tailored application rates! For best results, always use a Tempus Ag adjuvant. This information is not intended to replace a label. Always follow and read label directions.

Do you want a more consistent ROI on your farm? Commit to trying Tempus Ag's SyStemS approach. Incorporating these proven tactics and products will improve your ROI.

Start with the soil

Spray all applications with quality adjuvants

Supply foliar and biological products throughout the season
