

Company Overview

Tempus Ag is dedicated to delivering the most innovative, cost-effective crop inputs in the industry. Driven to create value through cutting-edge technology, deep industry expertise and a steadfast commitment to our products, Tempus Ag seeks out the latest technologies to stay at the forefront of agricultural advancements in adjuvants, nutritional supplements, micronutrients and nitrogen stabilizers.

With a countrywide footprint, our mission is to empower farmers with high-quality products designed to enhance crop yield, sustainability and efficiency.

Key Offerings

Supplier of High-Quality Crop Inputs

- Adjuvants: Buffering, dispersing, emulsifying, spreading, sticking, wetting, evaporation reduction, foam reduction, spray drift reduction and volatilization reduction
- Nutritionals: Complex packaging that provides a rich supply of needed macronutrients and micronutrients throughout the season
- Micronutrients: Supplemental nutrients to combat deficiencies and build for the future
- Nitrogen Stabilizers: Used to protect the investment and guard against volatilization and leaching

Custom Blended Products

- Bio-Based Fertilizers: Eco-friendly alternatives to synthetic fertilizers that improve soil health
- Diverse Mix of Custom Blends: Ability to be flexible on manufacturing capabilities to empower growers to get high-quality products with impressive value-generating outcomes

Private Label Capabilities

- Retail Optimization: Tailored products that fit the portfolio of your region and crop
- Accelerating the Brand: Allowing retailers to grow their brand in a meaningful way by having a say in what is produced and pride in the products sold

Why Choose Tempus Ag?

Innovative Technology

Our chemistry and agricultural expertise allow Tempus Ag to offer the highest-quality products for a fraction of the cost, passing the savings on to the grower

Agile and Flexible

Ability to listen and adjust to ever-changing market conditions and field needs

Expert Team

With over 75 years of combined experience, our team will answer and provide technical solutions

Trusted Manufacturer

By partnering with The Orion Companies, vertical integration allows low overhead, cost savings and just-in-time production
